MEET DR. FRANK KING, JR.

Dr. Frank King, Jr., is the founder and president of King Bio®, an FDA-registered pharmaceutical company committed to manufacturing safe, fast-acting, homeopathic medicines of the highest quality.

Dr. King has dedicated his life to helping the greatest number of people achieve their highest level of health through safe and effective natural medicines. He has personally and successfully worked with more than a quarter of a million patients presenting a variety of perplexing conditions, and many of these people had already been told that they were beyond help.

Realizing that so many people suffer from chronic and unresolved health problems, Dr. King began looking for the best ways to meet their needs, researching different natural healing modalities to discover which produced the best results. His findings gave birth to a dynamic healing system and a brand new line of homeopathic formulas. The system was so successful that people all over the United States soon wanted to use it, and to answer that call, King Bio was founded in 1989.

A nationally recognized researcher and author, Dr. King continues to research the most effective natural medicines and how to best use them. He has now developed more than 500 natural medicines along with new procedures to empower both the physician and the consumer in their quest for optimal health.

WHAT IS HOMEOPATHY and HOW DOES IT WORK?

Homeopathy is a natural pharmaceutical science that uses very small or infinitesimal doses of substances from the plant, mineral, or animal kingdoms to activate the body's own healing processes in order to cure disease naturally, gently, and promptly. It is a bioenergetic (meaning life-energy) system of medicine based on the Law of Similars, known since the time of Hippocrates, which states "like cures like." This means that if a natural substance given to a healthy person in a concentrated dose causes symptoms, then that same substance, when given in a highly diluted and potentized dose, will help a person who is ill with those symptoms to overcome them.

For example, if one drinks too much coffee, the mind races and prevents sleep; the nervous system gets on edge, and trembling may even result. A specifically prepared dilution of coffee will gently and promptly reverse these types of symptoms.

Another example is the symptoms caused by being exposed to sliced onions. Slicing *Allium cepa*, or red onion, may produce red and watering eyes, sneezing, and a runny nose. These symptoms are very similar to those of the common cold, hay fever, or allergies. Not surprisingly, *Allium cepa* is a homeopathic remedy for those symptoms.

Foods, vitamins, minerals, and herbs all work on a biochemical level. The body must break them down in order to use them. Since homeopathy works on a bioenergetic level, the body recognizes the *energy* of the substance and responds quickly. Dr. King, founder of King Bio, makes the analogy of a deck of cards: nutritionals are like the black cards and homeopathy is like the red cards. Together, they make the whole deck. As he says: "Homeopathy fills in the holes in our wholeness."

HOMEOPATHIC REMEDIES focus on the *whole* person and the body's own natural defense systems. Homeopathy recognizes the body's built-in abilities to heal itself and maintain a healthy vibrant state of well-being. Homeopathy teaches us that the symptoms of a disease represent the body's intelligent way of asking for help through the sensory nervous system.

The FDA recognizes the long list of about 1,300 official homeopathic ingredients in the Homeopathic Pharmacopoeia of the United States (HPUS). The ingredients are listed in Latin to ensure uniform identification worldwide.

HISTORY of HOMEOPATHY

In 1790, Samuel Hahnemann, a German physician and chemist, disapproved of the harsh, suppressive medical practices of his day: blood-letting, strong purgatives, and toxic chemicals that did more harm to patients than good. In disgust, he left his practice and began translating medical texts.

While translating William Cullen's *A Treatise for Materia Medica*, Hahnemann doubted Cullen's belief that Peruvian bark, or *Cinchona officianalis* was a remedy for malaria. Hahnemann followed the Law of Similars and began his own experiments with it. He took concentrated doses and found that it indeed caused similar symptoms to malaria. However, after he prepared it homeopathically, it also cured those symptoms. Hahnemann continued researching and documenting the causes, effects, and healings from natural substances prepared in a specific, nontoxic way, and finally presented this new method of medicine in 1796. The system of homeopathy was born. Today Dr. Samuel Hahnemann is known as the father of homeopathy, and the Law of Similars is a verified law of pharmacology.

Homeopathy has been in continuous and successful use around the world since Hahnemann's discovery. For more than 200 years, homeopathy has had NO recorded negative side effects, and NO known negative interactions with other drugs or supplements. No other medicine has such a long track record of safety.

WHAT TYPE OF DISEASES CAN HOMEOPATHY ADDRESS?

Homeopathy does not treat diseases. It is believed that homeopathy activates the body's own bioenergetic healing processes at both the physical and mental/emotional levels. The range of problems in which homeopathy can be safely used is extensive and includes first aid, acute illnesses, and all types of chronic conditions.

King Bio Natural Medicine® is designed to work powerfully at many levels to improve overall health and quality of life:

- ◆ To target multiple symptoms with multiple ingredients.
- ◆ To activate our internal mechanisms for detoxification.
- ◆ To balance mental, emotional, and physical levels.
- ◆ To strengthen our inner constitution.

WHAT DOES “POTENTIZED” MEAN?

Homeopathic remedies are not only defined by the ultra-dilution of the substances. They are also dependent upon the potencies created. Potencies denote how many times the substance has been diluted and succussed (vigorously shaken) following a very specific procedure. This process transfers the energy of the substance into the liquid, and is called potentization.

The homeopathic process starts with a tincture of the original substance. On the decimal (X) scale, one drop of that is mixed with nine parts of (in the case of King Bio formulas) our Bio-Energetically Enhanced™ (BEE)™ water and succussed for a prescribed number of times – from dozens to hundreds. One drop of that mixture is considered 1X (or 1/10). One drop of the 1X is mixed with nine parts of our BEE™ water and succussed again, and one drop of that would be 2X, and so on.

The more times the remedy goes through the process, the higher the potency becomes, and the more deeply the remedy acts in the person’s energy field. The higher potencies, even though they are more highly diluted, are deeply powerful on the mental, emotional, and physical levels; yet they are nontoxic and gentle.

This chart demonstrates a ranking of the potencies:

Designation	Dilution Rate
X	1/10
C	1/100
M	1/1000
LM	1/50,000

King Bio Natural Medicine® generally uses potencies of 10X, 30X, and LM1. We manufacture these remedies in the time-tested way of formulating by hand. The process is very labor-intensive, but Dr. King feels the increased therapeutic value is worth the effort.

WHAT IS ADVANCED, CONTEMPORARY HOMEOPATHY?

In the early days of practicing homeopathy, Dr. Hahnemann prescribed single ingredients – also called remedies – in single potencies, and often at low potencies. To this day, followers of this method are called “classical homeopaths.”

In his later years, however, Hahnemann encountered much more difficult cases among people who lived in cities. He found that patients with modern lifestyles and diets often had more complex health imbalances.

Due to the deeper and more complicated nature of his city patients’ illnesses, Hahnemann began experimenting with using a watery base for the remedies and also with using higher potencies in repeated doses. In the sixth edition of his *Organon of the Art of Healing*, a manuscript all but lost until 1921, Hahnemann wrote about his new favorite potency, the LM1.

Dr. King, also a pioneer in homeopathy, recognized the need for a new homeopathic approach for today’s complex health issues. The old method of trying “one remedy in one potency” made it difficult for the lay person to discover which remedy was the “correct” one. Modern, complex health problems required a new approach.

Dr. King and his colleagues revitalized this almost lost teaching of Hahnemann of higher potencies and now **King Bio has taken homeopathy to an even higher level:**

ADVANCED, CONTEMPORARY HOMEOPATHY.

WHAT MAKES KING BIO FORMULAS DIFFERENT?

COMPREHENSIVE COMPOSITION – King Bio formulas are the result of the accumulated knowledge of some of the most respected homeopaths, many years of combined research, and comprehensive clinical experience. King Bio's formulas meet the complex health needs of today.

The quality ingredients in our formulas are prepared from substances belonging to all three realms of nature. The plant kingdom is the source of more than half of our remedies. Qualified specialists harvest plants in their natural habitat after passing a thorough botanical examination. All components are prepared in strict accordance with the Homeopathic Pharmacopoeia of the United States (HPUS) and the standards of excellence outlined in the FDA's current Good Manufacturing Practices (cGMP). Components from the plant kingdom are gathered according to specific procedures. This involves harvesting specific parts of the plant at specific seasons of growth, i.e., buds, flowers, roots, etc. This process is essential to assure the therapeutic quality of King Bio formulas. Substances for our formulas also come from the mineral kingdom, and a small number came from the animal kingdom.

Once we have gathered the components for our ingredients, King Bio creates remedies using the principals of advanced, contemporary homeopathy:

1. Multiple HPUS ingredients

Each King Bio formula contains multiple homeopathic (HPUS) ingredients. This creates numerous choices, allowing the body to use exactly what it needs from each formula. Dr. King finds that this advanced, contemporary approach to homeopathy minimizes any potential "healing reactions" while quickly bringing the body back into balance.

2. Triple-Plus Potency™

Homeopathy works deeply at all levels: physical, mental, and emotional. King Bio Triple-Plus Potency™ in each formula maximizes the potential for the body to recognize and use the exact potencies it needs to correct imbalances at every level.

3. Bio-Energetically Enhanced™ taste-free, pure water base

Appreciated by taste-sensitive children and adults, all of our liquid homeopathic products have been formulated in our Bio-Energetically Enhanced, taste-free, pure water base. Our homeopathic liquids are free of dairy, sugar, alcohol, and gluten.

4. Unique spray delivery system

Our 2-ounce bottles offer easy and convenient medically metered spray dosages. This delivery method is sanitary, eliminates the need for dropper bottles or tiny tablets, and can be used as easily and discreetly in public as a spray breath freshener. Our spray bottles are #1 PET, BPA-free, recyclable plastic.

5. Three-year expiration date

All King Bio spray formulas have a full three-year shelf life. The products need no refrigeration, and are not negated by strong aromatics (like mint). In addition, they are not negated by airport X-rays. However, avoid leaving the formulas in overheated areas such as a car in the summertime. Extremely prolonged high temperatures may decrease effectiveness of the medicine.

FINDING THE RIGHT FORMULAS

The **King Bio Natural Medicine Reference Guide** is divided into a Product Listing (the first part of the Guide) and a Repertory (near the end of the Guide) to help you learn more about the potential formulas for each individual condition. In addition, we now have information about getting started with Dr. King's Total Treatment Plan, here and on the www.kingbio.com website.

The key to ultimate success with homeopathy is in finding all the formulas that match the symptom picture and correcting the underlying cause of the symptoms. Homeopathy is a highly individualized healing art. Having an insightful and open approach, as well as diligence in seeking the homeopathic remedies needed, is key to determining one's needs. Essentially, homeopathy offers maximum life-changing enhancements to total health.

Homeopathy is based on the Law of Similars, which is "like cures like." Don't let the names of formulas or diseases throw you off. If the symptoms are similar, consider them. With ongoing use of the **King Bio Natural Medicine Reference Guide**, this unique style of homeopathic thinking will develop in you over time.

Each of us is uniquely different. The "Indications for use" on the King Bio Natural Medicine label and the Aquaflora label may suggest the obvious formula for the symptoms. However, because our bodies are unique, individuals with similar symptoms may require different formulas. For that reason, we have a listing of "Complementary Formulas" with each remedy in the Guide that suggests other products that may enhance your healing process. Think like a health detective! The degree to which you follow through will determine your level of success in overcoming difficult or resistant problems.

The King Bio Natural Medicine remedies are divided into 18 color-coded categories. Consider various category formulas along with your symptom-specific formulas for optimal results. Step 3: Match your symptoms from the categories in the Questionnaire to the “**Indications for use**” for each product. “...for the introduction of homeopathy, which forced the old school doctor to stir around and learn something of a rational nature about his business, you may honestly feel grateful that homeopathy survived the attempts of the allopaths (orthodox physicians) to destroy it.”

- Mark Twain

HOW MANY FORMULAS SHOULD I START WITH?

Some people feel they have numerous symptoms that they'd like to find solutions for. They often ask if they should take formulas for all of those conditions at once.

Dr. King recommends starting with the **top four** formulas that address those dominant symptoms that are "screaming the loudest." You may be pleasantly surprised to see how many other seemingly unrelated problems begin to clear up while using King Bio's advanced formulas.

HOW TO USE KING BIO PRODUCTS

King Bio Natural Medicine spray bottle products:

- On the first use, prime the bottle's pump spray a few times and hold the bottle close to the mouth. Spray dose directly into the mouth.
- One adult dose is three complete pump sprays; a child's dose is two.
- All of our 2-ounce products can be taken from 2 – 6 times per day, as needed. In acute situations, the formulas may be taken every ten minutes for the first hour. (If there is no symptom improvement within the first hour, consider another formula.) Taking more than three sprays at one time will not increase effectiveness, but taking doses more frequently in acute situations will.
- Dr. King has found the most broad-spectrum healing results by using the sprays orally, topically (when appropriate), and by breathing in the mist (olfactory method).

USAGE CHART

Crisis or First Aid *	Acute or More Intense Symptoms	More Persistent Symptoms (Chronic)
<p>Every 10 minutes for the first hour. (If no change occurs seek another remedy.) If it is making a difference, keep using as often as every 15 minutes, depending on severity, until symptoms are lessened. Slowly reduce dosage as symptoms continue to clear.</p>	<p>4 – 8 times daily. After initial first aid or crisis period, you can move to the 2-6 times daily dose. If no change is noticeable within 1-2 days, consider changing to other related remedies.</p>	<p>3 times daily. More persistent problems can have acute episodes requiring more frequent dosages. Once symptoms subside, return to the 3 times daily dose as needed.</p>
<p>Examples: Injury with severe pain, migraines, minor asthma attacks, colic, fever, earaches, insect stings, emotional traumas, minor burns, and bee stings.</p>	<p>Examples: Hay fever, sinus, back pain, cold, flu, cough, mood changes, smoke control, appetite control, and stress.</p>	<p>Examples: Arthritis pain, allergies, backaches, detox, miasms, general recurring problems, and constitutional support.</p>

** For impairing or life-threatening conditions, seek proper medical attention. Homeopathy has no known negative side effects if used with other medications.*

Aquaflora High Potency 9:

This product is the foundation of our anti-Candida program, and it comes in an 8-ounce bottle.

- Take one capful in the morning before breakfast and one capful at night before bed. If symptoms flare up (which is fairly rare with our products, but good to understand in case it happens), it's just a signal that a healing reaction is occurring and the formula is working. In that case, just cut back on the dosage to ½ cap or ¼ cap doses, or even less in some cases. Continue taking the lowered dose regularly until symptoms subside, and then gradually work back up to the recommended dose.
- For Aquaflora products in spray bottles, usage is the same as for King Bio Natural Medicine sprays.

Visit our website www.aquaflorainc.com to learn more about Candida in general, and to see a suggested Candida-control diet.

Natural Pet Pharmaceuticals:

- Use ½ capful of the formula in your pet's water bowl or over their food. In homes where several pets drink from the same bowl, if only one pet needs the medicine and the others don't, no harm can come to any pets sharing the same water. The homeopathic formula will help any pet that needs it, while the pets that do not need it will have no response to it. King Bio formulas are safe for all types and ages of pets.

HOW SOON CAN RESULTS BE EXPECTED?

In acute conditions, the appropriate remedy can act within minutes. It is common to see a child with an earache who is screaming in pain, drop off to sleep in one to two minutes after receiving a dose of the appropriate remedy. In chronic conditions, results can be slower. Roughly, for every year of illness, it may take a month of treatment and multiple formulas to receive maximum results.

Though astounding improvements often take place, do not be discouraged if instant improvements do not occur in chronic or long-term conditions. For the chronically ill and hypersensitive, vitality must first be strengthened. There may even be a slight chance of temporary worsening of symptoms. This is usually short-lived and followed by improvement. (See Hering's Law of Cure, following.)

THE HEALING CRISIS & HERING'S LAW OF CURE

In Leipzig, Germany, in the 1820s, Constantine Hering, the student-assistant to a university doctor, was tasked with disproving homeopathy. After studying homeopathy and finding that it even cured his own infected wound, he instead became an advocate, calling homeopathy the medicine of the future in his doctoral thesis.

After emigrating to the U.S. and establishing a homeopathic medical college in Pennsylvania in 1833, he and his students treated 50,000 patients per year with homeopathy. Through his studies and practice, he defined a "reversal" healing process that became known as Hering's Law of Cure. He stated that the body seeks to express (or move out) health imbalances. When this process is stopped with harsh medicines designed to simply suppress the symptoms, the causes of the symptoms may become temporarily dormant, but they may go deeper into the system. However, when true, natural healing takes place, which assists the body's natural process to move the imbalances out, the body may express "old" symptoms to clean those out at the same time.

Hering's Law of Cure (also called a "healing crisis") states that old health issues that were suppressed in the past may briefly reappear during the healing process. When it happens, this is a sign that true healing is taking place.

Hering stated that the healing symptoms will appear from the inside out, from the head down, and in the reverse order of when they were suppressed.

- 1) From the INSIDE OUT - *The human body seeks to externalize disease.* One of the miraculous functions of the body is to move disease from more serious, internal levels to more superficial, external levels. For example, during the homeopathic treatment process, a patient treated for an allergy or asthma may,

during the curative process, develop a skin rash. However, someone with a deeper mental or emotional condition may commonly notice an improvement in their mental or emotional condition when such physical symptoms occur.

- 2) From the HEAD DOWN - *Healing progresses from the top of the body to the bottom.* A person with a skin rash or arthritis over their entire body may notice relief in the upper body before the lower body. Understanding this law of healing helps to differentiate a true cure from temporary relief, suppression, or a placebo response.
- 3) In the REVERSE ORDER - *Healing proceeds in the reverse chronological order of the appearance of the symptoms.* As healing progresses, sometimes a person will re-experience symptoms that he or she previously suffered. This may occur when symptoms were conventionally suppressed or not handled properly.

(Note: See References Section for documentation)

WHAT KIND OF EFFECTS CAN BE EXPECTED?

Restoring the communication networks within the body has been found to be the easiest and most effective way to rebuild our health. The unique healing powers of homeopathy are transmitted at the average nerve speed of 200 MPH throughout the body. That means that within 5 to 7 seconds, the healing and restorative messages of a homeopathic remedy reaches all 100 trillion cells of our body. As homeopathy restores this communication network, many positive effects may occur:

- ◆ Recurring subluxation patterns may stabilize and correct.
- ◆ Good eating habits may become easier.
- ◆ Herbal and nutritional supplements become more effective.
- ◆ Exercise efforts may produce better results.
- ◆ Even our efforts to manage stress and think more positively may become easier.

Homeopathy works so deeply within the inner fabric of the human body that actual corrections can take place as the body heals itself. Correction of seemingly unrelated health problems have also occurred. For example, someone may take the sinus formula and discover that leg pain or other seemingly unrelated symptoms have also cleared up. Even inherited problems and weaknesses (called *miasms* in homeopathy) have well documented cures. Homeopathy offers another tool to potentially help stop the passing on of inherited problems and weaknesses to our offspring.

Benefits that may be experienced include:

- ◆ Increased vitality
- ◆ Increased alertness
- ◆ Better sleep and peacefulness
- ◆ Increased sense of physical, mental and emotional well-being
- ◆ Help with inherited problems or weaknesses
